

1 N G R E D I E N T

In making 1NGREDIENT wines, we look to the past as we utilize practices that were used generations ago when wine was made naturally – without the additives and fancy pumps and filters that winemakers utilize today. Our specifically designed Italian Tava amphora provides a neutral vessel to ferment and age these wines, allowing the character of our certified biodynamic grapes to shine through in each bottle.

2021 1NGREDIENT Grenache Blanc

Winemaking:

- 100% certified biodynamic Grenache Blanc grapes from Purisima Mountain Vineyard, Ballard Canyon AVA.
- Hand-picked on 9/29/2021 and berry sorted.
- Punched down twice daily to increase phenolics and longevity.
- Aged for 10 months on the skins in amphora.
- Hand pressed and racked into a stainless-steel tank using a siphon to naturally clarify by gravity; no fining or filtration used.
- Aged for 2 months in tank.
- Bottled by hand using gravity.
- Hand labelled.
- Aged for one year in bottle before release.
- 13.2% alcohol.

Tasting Notes: Our first Grenache Blanc release for our 1NGREDIENT wines, the 2021 has a clear, golden honeyed color and modest alcohol. Underbrush, wildflower honey, apple, orange blossom and fresh ginger aromas reveal themselves with some air. The palate shows powerful structure and tannins that wrap around the flavors of apple skin, almond, dried orange pith, Meyer lemon, candied citrus and powdered ginger. Evolving minerality lingers on the long floral finish. Full-bodied, well structured and balanced, this is a great introduction to an unfiltered “orange” wine. The wine needs some time to open up so decanting when young is recommended.

Retail: \$50

Cases Produced: 66

Aging: 15+ years
