BIODYNAMIC SUSTAINABLE ESTATE GROWN

BECKMEN VINEYARDS

2024 PMV Syrah Clone #1

– Ballard Canyon AVA –

The Story

The PMV Syrah Clone 1 was our first limited-production estate Syrah, debuting in the remarkable 2001 vintage. Distinct aromas in the fermenters led us to bottle it on its own—revealing a signature profile of roasted espresso, smoke, bacon fat and ripe blackberry.

With roots in pre-phylloxera France, this rare clone traveled through Australia before being planted on Purisima Mountain in 1998. No longer commercially available, it remains a true collector's wine.

100% Syrah
Certified Biodynamic

The Vintage

The 2024 growing season brought more than 30 inches of rain—2.5 times the average—and a cool spring that delayed bud break. Warmer weather accelerated growth, allowing the vines to catch up despite a smaller-than-average crop. An intense late-summer heat wave ushered in an early harvest, with all white varietals picked by mid-September. The resulting wines are fruit-forward, with lush textures and fine tannins, and should drink beautifully upon release.

Winemaking

Clusters were hand-sorted, de-stemmed then cold-soaked for 2 – 3 days. Fermented for 9 days with native yeast. Punched down by hand twice daily.

Aging: 18 months in 60% new French oak, 40% neutral oak

Technical Notes

Purisima Mountain Vineyard

Harvested: Oct. 11 & 12
Alcohol: 14.6%
pH: 3.73
TA: 16.3 g/L

Sales

Released: November 2026
Drinking Window: 2026–2046

Case Production: 290

SRP: $85
