BIODYNAMIC SUSTAINABLE ESTATE GROWN

BECKMEN VINEYARDS

2025 PMV Viognier

– Ballard Canyon AVA –

The Story

Our original Viognier block was planted on Purisima Mountain in 2007. Planted on its own roots, the block struggled to establish itself, with our first Viognier released in 2012. Today, it produces a small crop of exceptional grapes each year. Building on its success, we planted an additional 1.25 acres in 2021. Our Viognier reflects a restrained style that emphasizes balance, texture and varietal expression.

The Vintage

One of the coolest vintages in our 32+ years, 2025 brought challenges but ultimately delivered high-quality fruit and wines. A dry winter and cold spring led into the coolest summer since 2011, followed by a wet, demanding harvest with early mildew pressure and October rains.

Whites and rosés were picked in late September, with reds harvested through October into early November. Careful farming and rigorous sorting ensured healthy fruit. The wines are flavorful, lower in alcohol, and show bright character with immediate appeal.

Winemaking

Grapes were pressed and cold-soaked for 5 days.Fermented in Stainless steel, neutral oak and Amphora for 14 days.

Aging: 8 months aging in 34% neutral oak, 48% stainless steel, 18% Amphora

Technical Notes

Purisima Mountain Vineyard

Harvested: September 17

Alcohol: 13.2%
TA: 5.6 g/L
pH: 3.42

Sales

Released: November 2026
Drinking Window: 2026–2036+

Case Production: 350

SRP: $48

100% Viognier
